WRC DATA REPORTING TRAINING

Trainings

CEDARS Data Reporting

What is it?

The Comprehensive Education Data and Research System (CEDARS) is a longitudinal data system managed by OSPI to collect, store, and report data related to students.

Why do we use it?

CEDARS provides us with performance measurement data. This data is required for the continued funding of our AmeriCorps grant.

When is CEDARS reporting due?

While WRC's final reporting deadline is July 1st 2018, we recommend entering student data near the time it occurs. We receive monthly data reports from OSPI. We appreciate efforts to keep your data up-to-date in your Student Information System (SIS).

Training Steps:

First

Watch the “Data Reporting in CEDARS” eight minute video [here](#).

Second

Review FAQ [here](#).

Third

Take the “Understanding CEDARS” five question survey via your Training Tuesday email or [here](#). This will provide us information on where you may need help.

Additional Questions?

Questions regarding your Student Information System or CEDARS?

Contact:

Your CEDARS administrator,

Your ESD coordinator, or

OSPI customer support at 360-725-637 / customersupport@k12.wa.us
